Time: 21.09.2022., 10:00—13:00h EEST

Introduction

This type of mapping provides users with a spectrum of information which are included in the planning of system maps of circular development in one system. At Circular Economy Balkan Beacons (CEBB), this mapping represents the initial step in the development of a transition to circularity, and it is aimed at the needs of the small and medium-sized enterprises sector. After mapping, grouping, clustering, and a deeper desk analysis of the mapped data are performed to get a clear picture of the opportunities and pressures visible on the way to circularity. The expected result of this step is a report on the state and factors of development of circularity in relation to the system in which the client is situated.

Necessary: to bring a laptop to the workshop

Lecturer: Milan Veselinov, CirEkon DOO

09:00—09:30	Welcome and registration
09:30—10:00	Introduction of CEBB and why the focus is on the systemic approach
10:00—10:30	Transition model of circular economy development, Introduction to mapping
10:30—11:30	Level 1 mapping on the given example
11:30—12:00	Discussion and further steps

We are looking forward to seeing you.
